HA LONG LUXURY JOURNEY

RESTFUL AND WARM

Beach Escapes

The journey is the destination. Literally.

7-12 days

2-8 guests

Easy

from US \$2,400 pp

[VIEW MATCHING TOURS ↗](#)

THE EXPERIENCE

Beach Escapes chosen for their water, their pacing and the quality of the stops. Transfers are private. Days are slow. Every detail is well chosen.

Soft sand, private transfers, island resorts and slow water days shaped around the weather and your pace.

Private beach access

Dedicated beach areas, shaded loungers and a discreet beach host when available.

Sunset water transfers

Speedboat or private transfer timing arranged around the best light.

In-villa dining

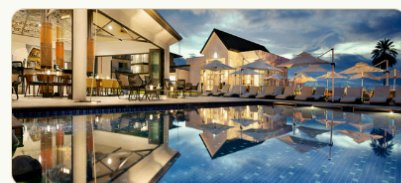

Breakfasts and special dinners can be served privately where the property allows.

Marine excursions

Snorkeling, paddling, sailing or bay time arranged around weather and tide.

Check device compatibility

Before purchasing, confirm your device supports eSIM. On iPhone: Settings → General → About → scroll down to "Available SIM" or "eSIM". On Android: Settings → Connections → SIM Card Manager → look for "Add eSIM" or "Download SIM". Most iPhone XS (2018) and newer, Samsung Galaxy S20+, and Google Pixel 3+ support eSIM. Note: devices purchased in mainland China or carrier-locked phones may not support eSIM.

🔗 You can run both your home SIM and the eSIM simultaneously — no need to remove your existing SIM card.

2

Purchase & Receive Your eSIM

Select your preferred data package (daily GB limit or total data), validity period, and complete payment. Your eSIM QR code will be delivered instantly to your email and also accessible via the Klook app under Account → Bookings. No need to wait — setup can begin immediately after purchase.

🔗 We recommend purchasing at least 1-2 days before your trip to set up at home on a stable Wi-Fi connection.

3

Install the eSIM via QR Code

Open the Klook app → Account → Bookings → find your eSIM booking → tap "Activate". Alternatively, go to Settings → Cellular (iPhone) or SIM Card Manager (Android) → Add eSIM → Scan QR code. Stay on the same screen and do not close the app during installation. This process requires a stable Wi-Fi connection and takes 1-3 minutes.
